

Dr. Stephen E. Mbuligwe

**Department of Environmental Laboratory Science and Technology
Ardhi University**

Biography

Steve has academic training and professional experience in public health engineering, environmental engineering, environmental management, and disaster management. He currently lectures in the School of Environmental Science and Technology at Ardhi University in Tanzania. Steve's main fields of specialization reflect on his training and professional experience in public health and environmental protection – related disciplines. He has personally conducted and supervised many research projects on various aspects of environmental management. Apart from research reports, Steve has authored and co-authored more than fifty book chapters, journal articles, and conference papers on issues related to the environment. Steve serves on the editorial board of 'Resources, Conservation and Recycling' journal and serves on a panel of experts for a dam development project as an environmental and dam safety expert. He is a member of the American Society of Civil Engineers (ASCE) and a member of the Association of Public Health and Environmental Engineers of Tanzania (APHEET). Steve is both a licensed environmental engineer and a registered environmental expert in Tanzania.
