Project OBJECTIVES

Overall objective:

to contribute to implementation of the National Adaptation Programme of Action of the United Republic of Tanzania - Priority sectors: human settlements, coastal and marine resources.

Specific objective:

to enhance the capacity of Dar es Salaam LGAs to support peri-urban population in their effort to cope with environmental changes.

At least 4 institutional adaption initiatives will be identified to be undertaken by Dar’s LGAs
Project RESULTS

By the end of the project

R1 Knowledge on current and future livelihood strategies of women and men from Dar’s peri-urban areas will be increased

R2 Methodologies at the disposal of Dar's LGAs for the design of initiatives to supporting people adaptation efforts will be improved

R3 Dar’s municipal personnel trained to understand CC issues, identify adaptation objectives and integrate them into existing UDEM strategies and plans will be augmented
Challenges we faced

• EU financial regulations are not well-known by African Universities, and not always compatible with their own regulations
• Research training faces a number of problems (e.g. poor research commitment, excessive teaching duties)
• No interest and capacity in result dissemination
• Competition rather than collaboration among similar projects
• Success of the action dependent on individual willingness / poor support from Universities
Activities ensuring sustainability

RESEARCH NETWORKING initiatives
